

1. Identification of the Substance/Preparation:

Use: Liquid plant fertilizer

Product name: SilikaMajic

Company: Floragarden Wholesale

Address: PO Box 173, Applecross, WA 6953, AUSTRALIA.

Telephone Number: (+61) 0411-297-030

Emergency Telephone Numbers: (+61) 0411-297-030

2. Hazards Identification

Hazard Classification:

Classified as hazardous according to criteria of NHOSC

Risk phrases:

R36/38 Irritating to eyes and skin.

Safety phrases:

S2 - Keep out of reach of children.

S24, 25, 26, 28, 37, 39. Avoid contact with skin and eyes

S26 - In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

S46 - If swallowed, do not induce vomiting. Drink a glass of water, seek medical advice immediately and show this MSDS and product label.

3. Composition/information on ingredients

Aqueous alkaline solution of silica:

Common Name	CAS	Conc
Silica (SiO ₂) as Potassium silicate	1312-76-1	15% W/V
Water		to 100% W/V

4. First-aid measures

For advice contact a Poisons Information Centre (Phone Australia 131 126, New Zealand 0800 764 766).

Swallowed: If swallowed, do not induce vomiting. Give a glass of water. If you feel you have been poisoned, burned or irritated by this product, contact a doctor or poisons information centre

Eye: If this product comes in contact with eyes, hold open and wash with running water for at least 15 minutes. Ensure irrigation under eyelids by occasionally lifting them. Do not try to remove contact lenses unless trained. Seek medical attention.

Skin: If this product comes in contact with skin, wash skin for at least 15 minutes with soap and water. Remove contaminated clothing and footwear. Ensure contaminated clothing is thoroughly washed before using again.

Inhaled: If mists are inhaled, remove to fresh air. Lay victim down and keep warm and rested. If breathing is shallow or has stopped, ensure clear airway and apply resuscitation or oxygen if available. Transport to doctor or hospital immediately.

Eye wash stations or baths and deluge showers should be available where product is being used.

Advice to doctor: Treat symptomatically. Note the nature of this product.

5. Fire fighting measures

Fire / Explosion: There is no explosion hazard from this material under normal circumstances.

Flammability: Not flammable.

Extinguishing Media: Use fire retardant suited to surrounding materials.

6. Accidental release measures

Spills: Prevent product from entering rivers, canals and other waterways. Wear full protective clothing including face mask, face shield and gauntlets. Stop leak if safe to do so and contain spill. Absorb into vermiculite or other inert absorbent material.

Sweep up and shovel or collect recoverable product into labeled containers for recycling or salvage. Recycle containers wherever possible. After spills, wash area, prevent runoff from entering drains. If material enters drains, advise emergency services. Dispose only in compliance with local regulations. Slippery on floors, especially when wet. Launder all contaminated clothing before reuse. Neutralize contaminated area with weak or dilute acid solution.

Materials to Avoid: Forms gels with acids. Corrodes metals such as aluminium, tin, lead and zinc and their alloys.

Disposal (After treatment above) Refer to waste management authority.

7. Handling and storage

Containers should be kept closed to minimize contamination. Keep from extreme heat, open flames and make sure the material does not come into contact with water or acids.

Do not store in aluminium or galvanised containers.

8. Exposure controls/personal protection

Generally not a hazard when handled carefully and as instructed. However, as a precaution, especially if splashing of liquid is possible, suitable personal protective equipment appropriate to the task should be worn.

Hand: Use rubber or plastic gloves.

Eyes: Approved chemical safety goggles or face protection.

Skin: Wear protective overalls buttoned at the wrist and neck (or bib resistant to alkalis) and impervious footwear. Sleeves of jackets or shirts should be buttoned over the glove wrists; trousers should be worn with the bottoms of legs outside the boots - not tucked in.

Respiration: Personal protection is not normally required unless a risk assessment indicates the need for it. If using as foliar spray, use approved breathing apparatus & chemical safety goggles or face protection.

Eye wash fountains and safety showers should be located near any area where this product is handled. Remove contaminated clothing promptly. Keep contaminated clothing in closed containers. Discard or launder before reuse. Inform laundry personnel of contaminants hazards. Do not smoke, eat or drink in work areas. Wash hands thoroughly after handling this material. Maintain good housekeeping.

9. Physical and chemical properties

Appearance: Clear, colourless water based liquid

Melting Point: No data. About 5°C

Boiling Point: About 105°C

Vapour Pressure: 17 mm of Hg @ 20°C

Specific Gravity: 1.18

Flashpoint: Not flammable

Flammability Limits: Not flammable

Solubility in Water: Soluble in all proportions

pH: 12.2 (Alkaline)

Corrosiveness: Corrodes aluminium, zinc, tin. Exothermic reaction with acids.

10. Stability and reactivity

Stable under normal conditions.

Keep containers tightly capped at all times and store only in opaque containers. Do not store in aluminium or galvanised containers.

11. Toxicological information

Toxicity Data: No detailed data available. LD 50 (Oral/Rat) >1500 mg/kg

Swallowed: Data suggests that the product should be considered harmful by ingestion. May cause problems if treatment is not sought. Symptoms include nausea, vomiting, abdominal pain and diarrhea. May cause severe irritation of the throat, mouth and stomach.

Eye: This product is severely irritating to the eyes. It will cause intense discomfort such as severe pain, copious watering and redness of the eyes. Effects will last long after exposure has ceased. Following severe exposure, permanent effects such as corneal damage or blindness can occur.

Skin: Data suggests that the product should be classified as very irritating in contact with the skin. May cause symptoms ranging from itching to redness and blisters if not treated promptly.

Inhaled: Data suggests that the product should be considered harmful if inhaled.

12. Ecological information

Prevent product from entering rivers, canals and other waterways.

13. Disposal considerations

Observe local legislation.

14. Transport information

Classified as Non Dangerous Good by the criteria of the Australian Dangerous Goods Code (ADG Code 7.3) for Transport by Road and Rail

Not subject to ADR/IATA/IMDG codes.

15. Regulatory information

Poisons schedule: No Poisons Schedule number allocated

Labelling: Irritant

Packaging: No special packaging or labelling requirements.
